

ASM

Advanced Safety Management

Welcome to ASM and DATS. This is our most general information piece. Please contact us if you would like additional details. Thank you.

ASM is a consulting firm that specializes in helping companies achieve safety certification.

We provide both **professional services** and **software solutions** to companies throughout B.C. and Alberta.

We would like an opportunity to get to know your company better. If you see something of potential interest here, please visit one of our websites or give us a call.

12+ years, 250+ clients, lots of experience, and a client relationship history that we want to share...

Advanced Safety Management Ltd.

THE **COR** EXPERTS

Head Office: Vernon, B.C.

1-866-276-5551

DATS is web-based software to help you manage your safety program - and do a whole lot more.

- Manage People
- Manage Tasks
- Manage Documents
- Manage Training
- Manage Competencies
- Provide Online Training and Testing
- Share Company News
- Access Imbedded Training
- Collect and Investigate Reports
- Access Live Help

You will love the red / yellow / green dot system.

- Red - Needs Attention
- Yellow - Be Aware
- Green - Good to Go

DATS is easy to learn, and easy to use.
